

IT Update February:

1. We have hired a new part time IT Employee. His name is Landon and he starts 2/14
2. Got updated quotes for computers and iPads being ordered with Tech Grant money.
3. Updated our imaging software Smart Deploy to the newest software version to unlock a few new features they are offering. Smart Deploy was bought out but we should not be affected by this.
4. I had a demo for an inventory management and auto update software.
